

Date 12/21/2022

We are licensed Mississippi State medical doctors & U.S. colleagues, all actively engaged in clinical practice. We come to you with the following urgent health concerns:

- We observe a medical crisis occurring – increasing disability and death in Mississippi caused directly by mRNA vaccines produced by Moderna and Pfizer.
- We ask for transparent data to verify the full scope of disability and death from these mRNA vaccines.
- We ask that the administration of further Covid-19 mRNA vaccines to the population be stopped immediately pending further investigation. This is a man-made medical emergency. The Covid 19 virus has mutated to nothing more than a “flu-like illness” with a low infection fatality rate. There is no state of emergency as it relates to the Covid-19 infection itself.

What are we asking for?

1. For Attorney General Lynn Fitch to petition for an order to impanel a Statewide Grand Jury under MS Title 13-7-7 (similar to what Governor DeSantis has done in Florida) to investigate whether the pharmaceutical industry (Moderna and Pfizer) has engaged in fraudulent practices in Mississippi. [Mississippi Code § 13-7-7 \(2020\) - Jurisdiction of state grand jury; petition to impanel state grand jury; impaneling state grand jury; powers and duties of impaneling judge :: 2020 Mississippi Code :: US Codes and Statutes :: US Law :: Justia](#) [Mississippi Code § 75-24-5 \(2019\) - Prohibited acts or practices :: 2019 Mississippi Code :: US Codes and Statutes :: US Law :: Justia](#) [SKM_C750i22121312420 \(flgov.com\)](#)
2. An investigation on why Mississippi doctors were censored and silenced by Dr. Thomas Dobbs (The Mississippi State Health Officer), MSDH (Mississippi State Department of Health), UMMC (University of Mississippi Medical Center), MSMA (Mississippi State Medical Association), and the MSBML (Mississippi State Board of Medical Licensure) regarding the risks of mRNA vaccines. 3. An investigation on why multi-drug therapies including Ivermectin were suppressed in Mississippi. [Don't use ivermectin bought at feed store to prevent COVID-19 \(wapt.com\)](#) [Dobbs: Ivermectin has developed a 'weird cult following' \(wlbt.com\)](#) [The Plot Against](#)

4. An investigation on why Dr Dobbs and our Mississippi State Department of Health with our medical teaching hospital UMMC and the Mississippi State Medical Association and Mississippi Pediatricians and OBGYNs all aligned themselves with the Biden/Fauci team to fear monger and claim the vaccines were safe and effective and would stop covid and stop the transmission of covid and stop the covid pandemic and push these vaccines on pregnant women and children. 5. Open forum discussion on alternative treatments to Covid 19 with multi-drug therapies including Ivermectin. (Refer to Dr Robert Corkern, MD and Dr Maroun E. Hayek, MD studies) [JMSMA : August 2021 \(msmaonline.com\)](#) [JMSMA : October 2021 \(msmaonline.com\)](#) And the poor editorial written in response by Dr Thomas Dobbs. [JMSMA : October 2021 \(msmaonline.com\)](#) And we have the proof from emails requested that Dr Dobbs as early as December 2020 suppressed the use of early multi-drug treatments including ivermectin. Available on request.
6. Open forum discussion of the risks associated with mRNA vaccines with outside independent experts and testimony from actual vaccine injured patients. [VAERS | Vaccine Safety | CDC](#)
7. Introduce Legislation that would allow Mississippi doctors to openly discuss risks of mRNA vaccines and the benefits of multi-drug therapies including Ivermectin for Covid 19, Long Covid, and the Vaccine Injured. (Refer to the Dr Peter McCullough and Dr Pierre Kory/ Dr Paul Marik FLCCC protocols) [Dr Peter McCullough Early Treatment Protocol \(November 2022\) \(onedaymd.com\)](#) [Treatment Protocols - FLCCC | Front Line COVID-19 Critical Care Alliance \(covid19criticalcare.com\)](#)
8. We would like a similar law to protect Mississippi Doctors free speech as this law in Florida. [h0687c1 \(flsenate.gov\)](#)
9. We would like a law that would allow parents of Mississippi children to obtain a religious or moral exemption from childhood vaccinations due to the likelihood the Mississippi State Department of Health will follow the CDC guidelines to put the covid vaccines on the childhood vaccine schedule. All 50 states already have this law but Mississippi, California, New York, Maine, Connecticut, and West Virginia.
